

# Datasheet | Temperature Monitoring

## The Product

Wireless temperature monitoring from Invisible Systems gives automatic temperature record collection 24/7, 365. Alarms are triggered by out of specification readings and delivered visually, audibly, via text and email.

The software provides a range of reports to aid compliance and demonstrate full temperature traceability. A full range of probes can be used to suit all food industry applications and are calibrated and certified to UKAS standard. The solution for eradicating needless stock loss, avoiding manual readings, giving round the clock peace of mind.

## Features

- Wireless system
- Automated reporting
- Constructed from food grade plastic
- Long life battery
- Early warning system
- Robust Wireless Construction
- User friendly software
- HACCP Reporting
- Modular system
- Corrective action database

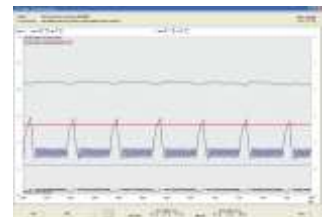

## Benefits

- Simple to install & extend
- No manual records
- Compliant for food safety
- Low maintenance
- Text/email exception reporting
- No loss of data
- Minimal training required
- Full temperature compliance
- Expand & add energy monitoring
- Full traceability

## Suitable for use in:

- |              |                                  |
|--------------|----------------------------------|
| • Processing | • Retail Restaurants             |
| • Catering   | • Chilled storage & distribution |

Reports are generated automatically to provide detailed profiles of your system in real time:

## Datasheet | Temperature Monitoring

### Technical Information

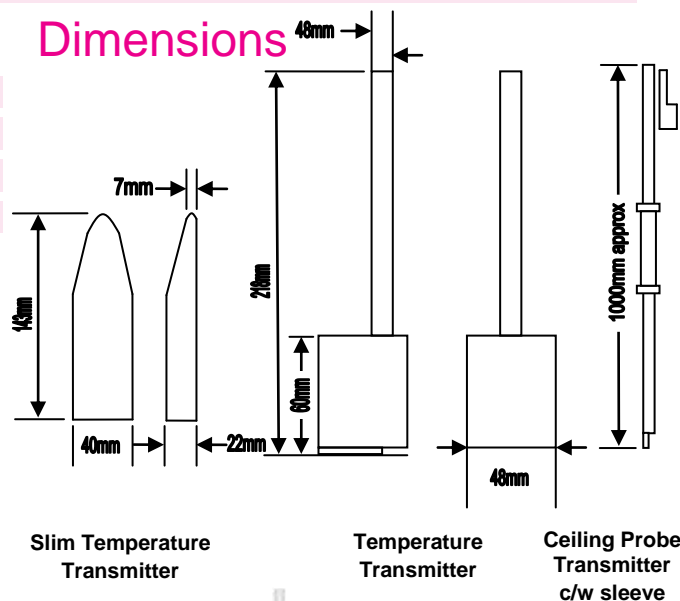

#### Specifications

MHz	868
Power	100mW
Battery Operated 3.6V 7Ah	Up to 10 years
Range	Up to 4Km line of sight
Temperature Range	-90°C to 250°C

### System Components

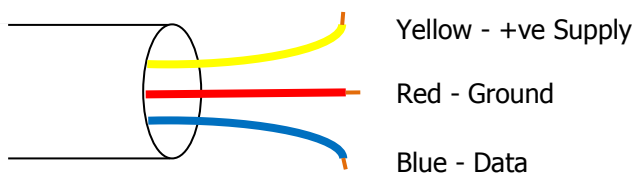

Description	Part Number
868 Ambient	999-913-2058
868 Ambient Slim	999-913-2067
868 Stainless Steel Air Probe	999-913-2057

### Dimensions

### Wiring Instructions

#### Signal Cable
